

Aircraft Rental Policy

WINDSOCK AVIATION has no minimum time requirements for renting our single engine airplane(s); you just need your pilot license, current medical, and a checkout with one of our certified flight instructors. Checkouts usually last about one hour. Checkout times depend on your experience. As a student pilot you will be renting, but all your flying will be supervised by a certified flight instructor. Please contact us for more information and schedule your checkout or to arrange for instruction today.

Rental rates do include fuel. A rental hour is based on "Hobbs" time, in other words per hour that the engine is running. However, we do have a daily rental minimum of three hours if you are going to have the plane overnight.
